
Fashion Stylist Wanted

Posted by Zar - 2008/05/30 20:29

Fusian is a fashion and lifestyle magazine aimed at Asian women in the UK.
We have our own in-house studios, photographers, make-up artists and styling team.

We need a hot stylist to work on editorial and advertising photo shoots on a freelance basis.

We also have a position for an individual with potential to do work experience within the fashion department.

Our offices and studios are based in Birmingham City centre.

PS We have a cosmopolitan team, but most of the garments we style and photograph are Asian. Therefore, you'll need some interest or experience of this kind of fashion.

For more information you can email me directly: zar@fusianmag.com
