
machinist,pattern cutter

Posted by graduatewithexperience - 2008/01/24 18:20

Hello,
My name is Diana and I have BA degree in Pattern Cutting. Most important is that I have 4yrs of experience in sewing mostly jersey garments, overlocking up to 50-100 pieces (childrens wear) a day, laying patterns, cutting layers of fabrics with eastman cutting machine, preparing pieces for production, sewing buttonholes and buttons using machine or by hand. I also have experience in sewing by hand (worked on delicate fabrics such as chiffon) and sewing straight when using machine so I am not a graduate who is at the beginning!! I look for a job in pattern cutting, tailoring, bespoke tailoring, basically cutting or sewing. I am looking for full-time permanent position but would not mind to start part-time position for the start. Any area in London.

Dear Diana,

You sound extremely talented, and deserve greatest possible exposure. You should write a full profile on yourself and include a few images of yourself and your work, then send it to jojo@fashioncapital.co.uk who will post your profile up on the profile's section on Fashion Capital so everyone can see what you have to offer,

Kind Regards

Emily

Hi,

I have a small project that I was wondering if you'd be interested in. There is a small fashion show coming up and we need an experienced pattern cutter/seamstress who can make our designs come to life. (We have the designs on paper only). There are 7 dresses and they need to be ready by April. We need someone who is really skilled, sews extremely well and has an eye for detail. Our models are a size 8 -10

Please let me know if you could help me out.

Thanks

Hi Diana, would be able to give me a rough quote on your price for pattern cutting and sample making for high fashion womens RTW. Thankyou that would be most helpful. You can email me personally at roy_storch@yahoo.com.au

Kind Regards

Roy

Hi Diana,

If possible could you please email me your CV and contact details on karys@purplerobe.com or call either myself or Mercier on 020 8864 8466 to discuss a full time position that I think might be suitable for you.

Best Regards

Karys
