
Work Experience in Fashion Industry Required

Posted by gemmadilemma - 2008/07/16 14:29

Hi, I'm a 17yr old student desperately looking for work experince in the fashion industry. I have just completed my AS-level year and I'm going on to A2's in September. I'm studying Textiles, Art, Histroy of Art and English literature/laguage. After my next school year I intend to do an art foundation course and then apply to university to study fashion design. It is very important I get as much experience as possible, ot only to aid my learning but also to help with my application to colleges/universities for my art foundation course. I am a hard working, diligent fashion enthusiast who leans very quickly! I'm fully trained at using sewing machinery, CAD, CAM, etc. I have designed and made a number of outfits over the past few years (photographs/sketches of which I can send if required).

I really would appritiate any experience you can offer me, whether it be in designing, styling, photographing, manufacturing, etc, etc. Basically I'm happy to do anything you can offer me! If you have anything availale please reply to this post or email me gemzy_gem_75@hotmail.com asap. Thanks!! :)
