Hi there,

We are a London wholesaler with large numbers of womens Topshop and River Island t shirts, dresses, hooded tops, vests and tracksuits to clear.

You are welcome to come and view them (we're in Tottenham, London), or we can send goods by courier.

Hi can I just point out here that if you are reselling on high street retailers goods then please be careful.

Are the goods seconds? If so you should find out what makes them seconds.

Are the good genuine?

Are the goods delabelled? High Street retailers will take action against both distributors and sellers if they are selling branded merchandise.

I don't want to be a kill joy here but likewise we do have a duty to protect our users too.
