The most effective form of advertising on www.fashioncapital.co.uk is to place this information within a newswire - this goes to the heart of the users.

FashionCapital.co.uk is now ranked as second on Google World Wide Search for the words "UK Fashion Website" it has had over 5.5m hits a month from over 60,000 unique users.

If you click the advertising box on the home page LHS near to the end all the advertising rates are published there.

Regards

Jenny Holloway
