Check out the new Simone Williams collection - <http://www.simonewilliams.co.uk/collection%2007.html>

The Simone Williams collection is inspired by the tall city building structures which make up London s vibrant city. This is reflected in the shapes and details of each garment whilst still retaining sexy charm.

There is something to suit every womans shape in this collection, which is a true celebration of femininity in the city.

Do a profile about yourself.WE know from our hits that these profiles are reviewed by USA and Italy. Click News then Click Profiles. Just submit a photograph of yourself, a few pictures of your collection and 1530 words about you and your label.

Send to jojo again and we will do the rest!

Regards
