## website probelms

Posted by donnabella - 2007/10/11 18:03

---

I am getting hugely frustrated with this website, it would be a great resource if only the site worked properly!

I would like to edit my who's who listing and also the business directory listing but cannot find the links to do it, someone please advice?

Also, on the forum page why does every poster come up listed as a Moderator?

grrr :mad:

Hi DonnaBella,

To update your info you need to log-in with your user name and password and amend from there.

Your comments are valid and I have forwarded them to the director and the main web master.

Just to let you know this site has gone through many changes and add-ons over the years as a result it can be a bit of a maze both front and back end. Our main web master is currently working on an all new and improved version which will be much easier to use for all and include new sections such as a new Knowledge Bank Business Directory. We aim to launch the new look FashionCapital in November - so not long to wait now. Hopefully you'll get on with the new site much better - we welcome your feedback.

Hi we do have to look at all the forums because you would not believe what people try and post up there!

FahsionCapital is currently second on the Google world wide search for the words UK Fashion Website - as such we have a team of people working behind the scenes to make sure it stays there.

Regards
