## Illustrators!!

Posted by JoyScott - 2007/12/28 13:34

---

Hi there!

My name is Joy Scott and I am just about to undertake my major postgraduate project at the London College of Fashion. I am a fashion and lifestyle journalism student, and for my final piece of work I am creating a beauty supplement for Wonderland Magazine. Please note this will not be published by Wonderland, it is coursework.

I am looking for high quality illustrations and editorial photoshoots to support the articles that I will be writing and give credibility to the mini-mag. You will ideally be familiar with Wonderland and the magazines style.

The beauty supplement is theme based around fantasy, illusion and surrealism. I do not want to disclose my articles online but if you get in touch I can give you further details.

Sadly, I cannot afford to pay contributors, but you will be credited and I shall send you a digital copy of the magazine and hopefully a hard copy too. These will be great for taking to future employers or getting work experience. I am also head beauty freelancer for [www.3sacrowd.com](http://www.3sacrowd.com) and there may be a chance that I can get work published on the site though I can not promise this.

My deadlines are very strict, the project takes place over just 5 weeks so I will need all illustrations by 15th January at the very latest.

So if you think you have what it takes, or fancy a challenge then drop me a line at [Joy.E.Scott@googlemail.com](mailto:Joy.E.Scott@googlemail.com)

Happy New Year!

Joy
