
Promoting Your Buisness

I'm a new member/photographer and not entirely sure if this is the right section of the site to promote myself to others.

However in January 2008 I am setting out on an around the world trip with international model Britney Lee. We will be stopping off in LA USA, Auckland NZ, Christchurch NZ, Sydney AUS and Singapore before returning to London. During the trip I will be shooting promotional material for some independent fashion designers and would welcome hearing from any other interested parties who may require images of their fashion designs charged at a reasonable rate.

Regards, Nick.:)
