
New Lingerie shop online

Hi,
I've just started up a lingerie business online. I'm very passionate about it because the reason that I set it up was because I was fed up of searching and finding tacky sites that sold anything and everything. With my site I have made sure that I only sell quality items that I would wear myself and have made sure that I am cheaper than all known competitors. I've endeavoured to make the site look good and easy to use, also there are articles with feminine matters - fashion, fitness and relaxations We sell top products from best European Manufacturers which includes Plus Size items. Please check out <http://www.emlingerie.com/shop.php> and let me know what you think. It would be a big help.
Thank you

Hi, I tried to view your site, just thought I would let you know it came up with an error!!! However, typing the url into the browser worked fine. Site looks good, however the link text is quite small and your image on the left is taking over your products and for someone who is viewing from a laptop the message gets cut off at the bottom so it only showed "al your beauty", great images. good luck. Maybe when you have a moment you could take a look at mine and let me know your thoughts. <http://www.efabe.co.uk> take care and I hope 2008 will be very successful for you.
