looking for a career in fashion

Posted by carly salih (imported from previous forums) - 2004/01/07 22:17

I am a final year student studying textile retail marketing at DeMontfort University. I decided not to do an industrial placement this year and proceeded to the final year and therefore have no work experience. I will be looking for a job to start in June but am worried that I will be unsuccessful due to lack of experience. I am interested in Marketing, Buying, and Merchandising. If you could give me any advice it would be much appreciated, thank you
