Hi Matt,

Take a look at our site - www.simonewilliams.co.uk - the 07 collection. We may have other pieces that might be of interest too.

I'm sure we can loan you a few garments so long as we're given good enough notice.

Hello Ronke,

You should consider setting up your own online boutique via fashioncapital. www.fashioncapital.co.uk is currently number 12 on google for the wording "fashion" and the volume of traffic flowing through is continuing to increase! The cost for your very own quick and easy to use boutique is a mere Â£250 + Vat, after this payment you can upload as many garments as you wish. The vast volume of traffic this site generates will boost your profits and create the exposure needed to succeed in this industry.

For more info contact the Head Office on 020 8462 9620,

Kind Regards

Emily
