
Materials/Fabrics

Posted by weepingwillow - 2008/03/16 11:52

Hello All,

I wondering if anyone can help?

I have designs that I want to produce in Asia. Do I have to source my own fabrics or can I send swatches of the types fabrics I am looking for and then they find similar patterns/types of fabric to what i am looking for?

Thanks,

Weepingwillow

you can send swatches of the fabric and I can try to source same/similar for you.

I'm based in Osaka, Japan. We produce premium fabrics here.

Thanks
