
photographers available

Posted by perandsebastian - 2008/04/14 18:02

Hi!

We are two photographers working together and currently updating our portfolios. We have access to professional studio and equipment. Location shoots are in our highest interest. Have a look at our web sites and feel free to contact us for any work available,

Do you have any photographers of cats or dogs...?

Or would you be happy photographing them..?

Jud

My name is Samantha Mark and I am a Designer in the process of finalising a collection for New York Fashion Week for this September and I am actually looking for a photographer ASAP for a location photo shoot I am organising. This will be between the dates of Monday 19th May to Friday 23rd May and it will be a one day shoot, the dates given are there for choice.

About my work and the "atmosphere" of the collection, this will be shot in Wembley, at my grandparent's home to be as this has reference to the subject of the collection.

Because I have funded this 16 outfit collection myself, I would be able to pay for travel expenses and food for the day.

You both sound enthusiastic to work with an interesting surrounding and I assure you this will be an interesting photo shoot.

Please feel free to view my work by searching my email address on myspace.com and I hope to hear from you soon.

Samantha Mark
