
Statistics on Menswear Sector

Posted by dannyheathcote - 2008/04/28 17:10

Hi all,

My name is Daniel Heathcote. I am launching a new Clothing range but I need to get some statistics on the menswear sector, I am really struggling to get hold of information that I require.

Could anyone help me please or point me to a source that would have the information?

The areas I need to address are:

Size of UK Menswear Sector

Current demand in Menswear market.

Trends in marketâ€™growth trends, trends in consumer preferences, and trends in product development.

Growth and performance of online clothing retailers

Any assistance would be genuinely appreciated.

Kind regards,
Dan

Hi Daniel,

Why don't you consider becoming a member with Fashion Capital.co.uk? This will entitle you to receive extensive feedback when asking questions such as this in the exclusive members only forum. Membership also entitles you to have the opportunity to stock in our two retail boutiques, our online boutique and the FC boutique, this succession of revenue outlets will inevitably increase your exposure directly to your relevant target market via our 5.5million hits every month from over 60,000 core industry users. We also provide a number of services such as the Representing Agency and our PR Dispensary Service you may find useful if you are looking to launch your label, for more information regarding these services then please do not hesitate to contact us on either 020 8462 9620or 020 8681 5014.

Kindest Regards

Emily
