Hello there Emma,

Have you checked out the manufacturer's online showroom on FashionCapital.co.uk? This is a quick and easy to use filter system that was created to provide designers with an easy access service to find manufacturers best suited to their requirements. In turn the manufacturer's receive greater exposure and an increased workload as Andrew from The Sampling Unit in London can confirm as he receives more enquiries through FashionCapital.co.uk than via the Yellow Pages or Yell.com.

If you would like to receive any more information regarding the Manufacturer's Online Showroom or any of the other services Fashion Enter Ltd has to offer then please do not hesitate to contact me on emily@fashioncapital.co.uk or 020 8681 5014.

Kind Regards

Emily

Thanks, will check out the manufacturers showroom. Actually, I thought the manufacturers only worked more with the couture side of things like dresses, separates, and tops.

Hi, If you want to produce premium denim then you won't be able to do it fully in the U.K. there just isn't the infrastructure for all the processes involved especially finishing. I'd be happy to help you make premium denim samples and small productions runs to the same standards as the established brands, using the finest Japanese Fabrics, manufacturing and finishing techniques. Please feel free to e-mail me for further information.
