Hello,

I might have one item for you. I made a capsule collection inspired by Joseph Beuys, the modern art artist. One item was white, inspired by ribs. It's a simple dress, with pointy cap sleeves(pointy as in, multiple points sticking out on the sleeve, hard to explain) and simple folding/manipulation in the front to make it appear as ribs. Would that be an item of interest for you? I have a photo of it somewhere, if you like I can e-mail it, so you can see whether that is something you'd like to use? I made two other items in that collection, but they're bronze/copper and dark grey, not white.

If you're interested please feel free to contact me on my e-adress: [ardutchcouture@gmail.com](mailto:ardutchcouture@gmail.com).

Good luck, the shoot sounds vey interesting!

Debby
