
Ladies Wear Designer

Posted by bigbrad - 2005/09/26 10:33

I Graduated this year from The Surrey Institute of Art with a Degree in Fashion. I Had a very successfull final year and am very proud of my final collection. Since then i have been make pieces for clients as well as working for Gharani Strok and helping them prepare for London Fashion Week. Now i am looking for a more perminent placement or position with a design company. Im hard working, very organised and love taking on responsibilities.

I would love to hear from any designers that would like to work with me, and im very keen to show you my work and get any feed back.

Look forward to hearing from you Charlotte.
