## Fashion shoot collaborations

Hello,  
my name is Milo, i am currently studying towards my second year of a BA in Fashion Photography at the London College of Fashion. I currently have studio time booked up in the full size college studios (right by Bond Street tube) with other possible dates. I am familiar with all photographic formats and have access to a huge selection of cameras at college including excellent digital slr's. I also personally own a professional studio lighting kit, spot meter and manual 35mm slr, all of which i am well experienced with. If you are a designer, stylist, model or hair/makeup artist and would like to collaborate on some interesting shoots with the aim of mutually strengthening out portfolios do get in touch. I will provide prints free of charge, thank you,  
Milo Holliday.

Hi

I may be able to provide a number of subjects let me know when you are looking to shoot.

Unfortunately you may need to travel to SE London, 25 mins from London Bridge? Is that ok?

Hi, i dont know if you can help me, im currently living in Leeds area and i'm trying to get in to the catwalk industry which is proving pretty difficult as every one is in London. I have a portfolio but it is a couple of years old now and quite dated. I could do with another one but i refuse to pay as there are too many cons about. If you are interested let me know and i can send some pictures from my previous portfolio. Also if any one knows anywhere in Leeds that may be able to help me would be greatly appreciated.

:)
