
Ethical Designers wanted!

Posted by kyrstyjade - 2006/10/09 14:47

Hi

I am currently researching ethical fashion designers for a new magazine which is being launched in March 2007.

I have a big list of designers already but I am looking for less established designers as well as the well known designers, to make my list even bigger.

If you know anyone / company/ or you yourself are an ethical fashion label who fits this criteria, please do get in touch. If you suggest a company, they could feature in a new magazine in March 2007 - so it is all good exposure!

They will need a spring / summer collection for 2007 preferably and have a wide collection and look books for me to browse.

Many thanks and hope to hear form people soon!!!!
