
Advice on my career Photography/t-shirt design

Posted by holbee92 - 2008/02/27 15:17

I'm only young and new to this website, but since doing work experience for fashion enter I have decided that i want to go into photography/graphic design.

I have always wanted to do photography and design my own t-shirts for young people.

But, i would like some more information.

On where i could get experience in photography/fashion photography, and advice on how i could get started on making my own t-shirts and then going on to sell them.

Please if you have any information or advice that you could give me, please e-mail me on holbee92@hotmail.com

Many thanks
Holly Baker x

Hi Holly,

I know a really good photographer who is extremely helpful and has worked with a few younger photographers on their work experience - his name is Rodney Compton and his contact number is: 07703 191388. Give him a buzz and he should be able to give you a hand and point you in the right direction,

x
