Hi Yvonne,

Within the past year over 1000 new members have joined Fashion Enter and a lot of our members are always on the look out for sample machinists. Whereabouts are you based? Enter Boutique in Croydon are also short of a seamstress as the talented Feride moved to our newest Barking Branch. You could also send me some information about yourself and your work along with some images which we can then turn into an article and post it on the homepage to increase your exposure and inevitably find you more work. Please send some more information and your CV to emily@fashioncapital.co.uk.

Kind Regards

Emily
